Dear Sir:

The NRC was notified of a potentially reportable deficiency in
Reference (A), Interim Reports were transmitted by Reference (B) and (D)
and Time Extensions were requested by Reference (C) and (E). At that
time, it was estimated that a Final Report would be available by
August 15, 1984.

As discussed in Reference (F) the Post Demonstration Test Inspection is
in process. The results of the inspection must be evaluated prior to
submittal of the Final Report. APS expects this report to be completed
prior to August 31, 1984, however, a time extension is requested until
September 15, 1984.
