Dear Sir:

The NRC was notified of a potentially reportable deficiency in  
Reference (A) and (B), Interim Reports were transmitted by  
Reference (C), (D) and (E), and Time Extensions were requested by  
Reference (F) and (G). At that time, it was estimated that a Final  
Report would be available by August 15, 1984.

As discussed in Reference (H) the Post Demonstration Test Inspection is  
in process. The results of the inspection must be evaluated prior to  
submittal of the Final Report. APS expects this report to be completed  
prior to August 31, 1984, however, a time extension is requested until  
September 15, 1984.
