SAFEGUARDS INFORMATION REMOVED

Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-325/92-08 AND 50-324/92-08

This refers to the inspection conducted by W. J. Tobin of this office on March 23-27, 1992. The inspection included a review of activities authorized for your Brunswick Nuclear Plant. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The enclosed Inspection Report identifies activities that appear to violate NRC requirements that are not cited; therefore, no response is necessary. The requirement is relative to the repair and maintenance of security related equipment and hardware. Your corrective actions will be reviewed during the course of future inspections.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR part 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the material will not be placed in the Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,

J. Philip Stohr, Director
Division of Radiation Safety
and Safeguards
