Wallace J. Weaver, Chairman  
Regional Assistance Committee  
Federal Emergency Management Agency  
Region V  
300 South Wacker, 24 th Floor  
Chicago, IL 60606

Dear Mr. Weaver:

Reference your August 16, 1984 letter to Mr. J. G. Keppler, regarding the Point Beach Nuclear Plant exercise. Due to the scheduling of the FEMA Pre- and Post-Exercise Meetings in conflict with the NRC Entrance, Controller, and Exit Meetings, an NRC representative will not be available to attend the FEMA pre-exercise briefing. William Snell, NRC Lead Inspector, will contact you after the Entrance Meeting on September 10, 1984, if he notes significant scenario changes which may not have been provided to FEMA. Mr. Snell will attend the public critique scheduled for 7:30 pm on September 13, 1984.

Due to resource and scheduling constraints, it is unlikely that Region III will be able to continue to provide a representative for the public critique during FY 1985, unless these meetings are held within a maximum of a day of the end of the exercise.

If you have any questions or require further information, please contact Monte Phillips, Chief, Emergency Preparedness Section on FTS 388-5530.

Sincerely,

*C. J. Paperiello*
