Gentlemen:

Enclosed please find Amendment 04 to License No. 04-07840-02. You should carefully review this license and be sure that you understand all conditions. Your license was amended "in its entirety" as will be done for all future amendment requests. Please note that the expiration date for your license has not changed.

We have received a letter dated July 26, 1984, signed by Bernard S. Tatera, Ph.D., providing additional information regarding the report (dated May 31, 1984) of a radiation survey of your cobalt-60 teletherapy facility. A review of the information contained in these documents indicates that the requirements of Condition 18 of your license have been fulfilled.
