Gentlemen:

SUBJECT: DOCKET NOS. 50-424 AND 50-425

This acknowledges the receipt of your letter of March 31, 1992, which transmitted Revision 22 to the Vogtle Physical Security and Contingency Plan.

Our review of the changes has found most of them to be consistent with the provisions of 10 CFR 50.54(p). Accordingly, they are acceptable for inclusion into the plan.

In order for Region II to be able to review your change in Section 5.1.3.1 this section must be clarified to state that all elements of Regulatory Guide 5.66 have been implemented. If you plan to implement a program that does not include all the elements of this Guide, the change should be submitted to NRC's Headquarters Office of Nuclear Reactor Regulation for review.

This was discussed in a teleconference on April 16, 1992, between Ms. O. Masnyk of the NRC and Mr. D. Huyck of your company.

The enclosure to your letter is being withheld from public disclosure because it contains Safeguards Information and must be protected in accordance with the provisions of 10 CFR Part 73.21.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

151

Douglas M. Collins, Chief
