

AUG 8 1984

Docket No. 50-322

Long Island Lighting Company  
ATTN: Mr. J. L. Leonard  
Vice President - Nuclear  
P. O. Box 618  
Shoreham Nuclear Power Station  
Wading River, New York 11792

Gentlemen:

Subject: Inspection No. 50-322/84-23 (May 28, 1984 - July 1, 1984)

This routine inspection of the Shoreham Nuclear Power Station included review of previously identified inspection findings, closeout of a bulletin and a TMI item, followup on the accidental discharge of a security guard's weapon, witnessing of a shift advisors written exam, and attendance at the SALP meeting. No violations of NRC requirements were found and you need not reply to this letter.

In addition we also wish to acknowledge your May 1, 1984 reply to our April 12, 1984 letter regarding further clarification of your controls over reassembly of the emergency diesel generator. The reply is responsive to our needs.

This transmittal will be made public unless you notify this office, within 10 days of the date of this letter, that you intend to request withholding of information under 10 CFR 2.790(b)(1). That notification may be made to the Supervisor, Files, Mail and Records, USNRC Region I, at (215) 337-5223.

Your cooperation with us appreciated.

Sincerely,

Original Signed By:

*Edward G. Greenman for*  
Richard W. Starostecki, Director
