SUBJECT: REQUEST TO TRANSFER OWNERSHIP OF 3 ACRES OF LAND FROM WESTERN NEW YORK NUCLEAR SERVICE CENTER TO TOWN OF ASHFORD (TAC NO. L30818)

Dear Dr. Piciulo:

By letter dated October 20, 1995, you requested to transfer ownership of 3 acres of land from Western New York Nuclear Service Center (WNYSC) to the town of Ashford. The 3 acres in question have been leased by the town of Ashford since 1985 and this transfer would allow the town the right to store equipment on the land indefinitely. The U.S. Nuclear Regulatory Commission considers the 3 acres in question to be unaffected by current and past radiological operations permitted under the West Valley Demonstration Project and the former commercial spent fuel reprocessing facility license (License No. CSF-1) because of the relative distance of the 3 acres from the active radiological operations. Therefore, NRC has no objection to this transfer of land.

If you have any questions, please call me at 301-415-8106.

Sincerely,
