Docket No. 50-302
License No. NPF-38

Entergy Operations, Inc.
ATTN: Ross P. Barkhurst, Vice President
Operations, Waterford
P.O. Box B
Killona, Louisiana 70066

Gentlemen:

Enclosed is a letter from Dennis Kwiatkowski of the Federal Emergency Management Agency (FEMA) dated March 20, 1992, transmitting to NRC the FEMA Region VI report for the October 23, 1991, emergency exercise at Waterford-3 Steam Electric Station. The state of Louisiana and the Parishes of St. Charles, St. John the Baptist, St. James, and Tangipahoa participated fully in the exercise. A copy of the report has been forwarded by FEMA to the state of Louisiana.

The March 20, 1992, FEMA letter identified no deficiencies. There were, however, six Areas Requiring Corrective Action identified during this exercise for St. Charles Parish. You are requested to followup with off-site officials on the Areas Requiring Corrective Action. We also request that you review the utility issues identified by FEMA beginning on page 64 of the report as areas for potential improvement.

Based on the results of the October 23, 1992, exercise, emergency response plans and preparedness for the Waterford-3 Steam Electric Station are adequate to provide reasonable assurance that appropriate measures can be taken offsite to protect the health and safety of the public in the event of a radiological emergency at the site.

No response to NRC is required. If you have any further questions, please contact Dr. D. Blair Spitzberg at (817) 860-8191.

Sincerely,

Original signed by
Thomas P. Gwynn for
A. Bill Beach, Director
Division of Reactor Projects
