Newport, MI 48166

SUBJECT: REVIEW OF REVISION 16 TO THE FERMI II PLANT'S EMERGENCY PLAN

Dear Mr. Gipson:

In December 1995, Region III received Revision 16 to portions of the Fermi II Plant's Emergency Plan, which incorporated unissued Revision 15. We have reviewed Revision 16 and determined that it is acceptable and does not decrease the effectiveness of your emergency planning.

Revision 16 included updates on which positions in the plant's normal organization were associated with certain positions in the emergency organization. The assignment of responsibility was refined for authorizing the distribution and use of potassium iodide. Added information was provided on onsite protective actions and the provisions for assessing potential radiation exposures. Several clarifications were provided on the emergency response information system. Summary information was revised regarding some effluent and process radiation monitors. Clarifications were provided in summary descriptions of the State's and counties' emergency response concepts of operations. Revision 16 also included other information updates and editorial changes.

If you have any questions, please have your staff contact Mr. T. Ploski of my staff at (708) 829-9812.

Sincerely,

James R. Creed, Chief
Plant Support Branch 1
