

APR 30 1992

Docket No. 50-289

Mr. T. Gary Broughton  
Vice President and Director, TMI-1  
GPU Nuclear Corporation  
Three Mile Island Nuclear Station  
P. O. Box 480  
Middletown, Pennsylvania 17057-0191

Dear Mr. Broughton:

Subject: Inspection No. 50-289/92-08

This letter refers to the physical security inspection conducted by Mr. G. C. Smith of this office on April 6-10, 1992, of activities authorized by NRC License No. DPR-50 at Three Mile Island (TMI) Unit 1, Middletown, Pennsylvania and to the discussions of findings held with Mr. R. E. Rogan and other members of your staff by Mr. Smith at the conclusion of the inspection.

Areas examined during this inspection are important to public health and safety and are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel and observations by the inspectors. Corrective actions for potential weaknesses identified during our previous review of your Fitness-for-Duty program were also evaluated.

We found that the physical security program being implemented at TMI was directed toward the protection of public health and safety. Within the scope of this inspection, no violations were observed.
