Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Quad Cities Station Units 1 and 2
Supplement to Proposed Amendment
to Technical Specification for
Facility Operating License Nos.
DPR-29 and DPR-30
NRC Docket Nos. 50-254 and 50-265

Reference (a): T. J. Rausch letter to H. R. Denton
dated February 17, 1983.

Dear Mr. Denton:

Per the referenced letter, Commonwealth Edison proposed to amend Section 6 of Appendix A, to the Technical Specifications, for Facility Operating Licenses DPR-29 and 30 for Quad Cities Units 1 and 2 respectively. During the review of that submittal, a revision to 10 CFR Section 50.72 and a new Section 50.73 effective January 1, 1984 have since been issued which revised the immediate notification requirements and Licensee Event Report System respectively. Therefore we are updating our amendment request to reflect these changes. The changes submitted herein are pursuant to the reporting requirements of Sections 50.72 and 50.73 of 10 CFR Part 50 and were prepared using the guidance provided in Generic Letter No. 83-43.

In addition, with the promulgation of 10 CFR 50.49 the June 30, 1982 deadline for completion of environmental qualification of electrical equipment contained in Section 6.7 was superceded with a new completion schedule. Therefore, Section 6.7.A was deleted. For ease of review we are re-submitting all changes, both those requested in our original submittal and those requested in this letter.

The proposed changes are described in Attachment A with specific page changes enclosed in Attachments B and C. The attached changes have been received both Onsite and Offsite review and approval. We have reviewed this amendment request and find that no significant hazards consideration exists. Our review is documented in Attachment D. Commonwealth Edison is notifying the State of Illinois of our request of this amendment by transmittal of a copy of this letter and its attachments to the designated State Official.

Summary of Proposed Technical Specification Changes

SECTION

1.0 - DEFINITIONS

Added "HH. Reportable Event - any of those conditions specified in Section 50.73 to 10 CFR 50.73 to 10 CFR Part 50."

3.12.B.2, 3.12.A.2.b, 3.12.B.3.b, 3.12.C.3, and 3.12.D.5

. . . the Commission pursuant to Specification 6.3.A.1.

6.1.G.1.a.7)

Change "Reportable occurrences . . . to the NRC."
To Read "7) Reportable Events

6.1.G.2.a.10)

Change to read as follows, "Review of reportable events and action to prevent recurrence."

6.3 - REPORTABLE EVENT ACTION

A. Changed to read as follows: The following actions shall be taken for Reportable Events:

- 1) The Commission shall be notified and a report submitted pursuant to the requirements of Section 50.73 to 10 CFR Part 50.
- 2) Each Reportable Event shall be reviewed by the On-Site Review Committee, and the results of this review shall be submitted to the Off-Site Review and Investigative Function and to the Division Vice President Nuclear Stations.

6.6.B

Deleted entire section.

6.4

. . . in accordance with Specification 6.3.A.1.

6.7.A

Deleted entire section.
