Docket Nos. STN 50-498, STN 50-499
Phase II Security Measures During
Remodeling of the Maintenance Operations Facility

Reference: Letter from William J. Jump to Document Control Desk
Dated September 27, 1991 (ST-HL-AE-3858)

As noted in the letter referenced above, Houston Lighting & Power Company (HL&P) is refurbishing the former South Texas Project Electric Generating Station (STPEGS) onsite administration building as a Maintenance Operations Facility (MOF). Construction work associated with the MOF project has resulted in a number of temporary changes in the configuration of the Protected Area boundary. Phase I temporary changes were described in the referenced letter. Implementation of Phase II temporary changes is expected to begin by December 15, 1991.

Phase II temporary changes are as follows:

Barriers

The temporary Protected Area boundary will be extended to exclude the entire MOF from the Protected Area. The temporary boundary is depicted in Figure 1 (attached).

A temporary gatehouse will be installed to control access/egress to the MOF machine shop from the Protected Area. The gatehouse door and badge storage will be protected [REDACTED]. The gatehouse arrangement is depicted in Figure 2 (attached).

F PDR

Intrusion Detection or CCTV Surveillance

The changes described above will not decrease the effectiveness of the security plan.

If there are any questions, please contact Mr. P. L. Walker at (512) 972-8392 or me at (512) 972-7205.
