Mr. B. J. Youngblood, Chief  
Licensing Branch No. 1  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Perry Nuclear Power Plant  
Docket Nos. 50-440; 50-441  
SER Confirmatory Issue No. 15  
Preservice Inspection Program

Dear Mr. Youngblood:

This letter and its attachments are provided in response to the Perry Nuclear Power Plant (PNPP) SER Confirmatory Issue No. 15, regarding the PNPP Preservice Inspection (PSI) Program.

The attached PSI Program Plan, Revision 3, 4, and 5 incorporates our deletion of the exclusion of pipe greater than 3.0 inches in diameter. Also attached is the reactor pressure vessel (RPV) section of the PSI Program, which completes the PSI Program submittals to the staff.

After examinations are performed, specific cases where the code requirements cannot be met will be identified and supporting technical justification will be provided to the staff.

One copy of the PSI Program Plan, Revision 3, and the RPV Section of the PSI Program has also been sent to Mr. Boyd Brown of EG&G Idaho. If you have any questions, please call.

Very truly yours,

Murray R. Edelman  
Vice President  
Nuclear Group
