King of Prussia, PA 19406

Dear Sir:

Three Mile Island Nuclear Station, Unit 1 (TMI-1)  
Operating License No. DPR-50  
Docket No. 50-289  
Inspection Report 84-16 - Revised Completion Date

This is to document a conversation with NRC Region I, regarding the completion of modifications to the containment Atmosphere Monitoring System. The targeted completion date of August 1, 1984 as discussed during the exit meeting for Inspection 84-16 on June 8, 1984 and reiterated in our letter of July 3, 1984 has been changed to September 1, 1984 due to procurement difficulties.

Although the revised commitment date for completion of this modification was not reflected in Inspection Report 84-16 dated July 31, 1984, it is our understanding, through a conversation with Marie Miller of NRC Region I on July 26, 1984 that a September 1, 1984 completion date is acceptable to your staff.

Sincerely,

  
H. D. Hukill  
Director, TMI-1
