Mr. Darrell G. Eisenhut, Director  
U. S. Nuclear Regulatory Commission  
Office of Nuclear Reactor Regulation  
Division of Licensing  
Washington, D.C. 20555

Reference: Docket No. 50-285

Dear Mr. Eisenhut:

Diesel Generator Reliability  
Generic Letter 84-15

The Omaha Public Power District received Generic Letter 84-15, dated July 2, 1984. In this letter, three items concerning diesel generator reliability were identified. The District has reviewed the information requested and does not believe it can be supplied within the ninety-day time frame specified.

Accordingly, the District requests an extension until December 15, 1984 to provide the required information. This extension is requested due to manpower constraints, the time needed to collect, verify, and analyze the data, and the time required to formulate future District actions.

Sincerely,

*R. L. Andrews*
