Docket No. 50-324

Carolina Power & Light Company
 ATTN: Mr. E. E. Utley
 Executive Vice President
 Post Office Box 1551
 Raleigh, North Carolina 27602

Gentlemen:

By letter dated January 27, 1984, the Office of Nuclear Reactor Regulation (ONRR) staff informed your Company of their approval of your application dated December 9, 1983. This application requested relief from certain ASME Code test requirements for the Brunswick Steam Electric Plant Unit No. 2. Fees pursuant to 10 CFR 170.22 of the March 23, 1978 regulations were not remitted with your request.

Based on information provided by the ONRR staff as the result of their final review of your request, it has been determined that a Class III fee (\$4,000) is appropriate since the review involved consideration of a single safety issue. Therefore, you are requested to remit the sum of \$4,000 to this office.

For your information, a brief discussion of fees for applications for license amendments and other requests filed before and after June 20, 1984, is contained in Enclosure 1 to this letter. If you have any questions regarding fees, please contact us on 301-492-7225.

Sincerely,

Original Signed by:
