ATTN: Mr. L.J. Callan
611 Ryan Plaza Drive, Suite 400
Arlington, TX 76011

Sirs:

Enclosed is one copy of Revision VI of the Physical Security Plan for the U.S. Geological Survey TRIGA Reactor Facility. The plan was revised as permitted by 10 CFR 50.54(p) and this document is submitted accordingly. The USGS Reactor Operations Committee reviewed the changes to the Physical Security Plan and found them to not decrease the effectiveness of the plan.

The changed text areas of the plan are marked with a vertical line in the margins on the respective pages. Explanations of the changes are as follows, with page numbers referring to the enclosed copy.

In general, all gender references to personnel (he, his, him, etc.) have been removed.

Page 6-10, Figure 6.4, was inserted. This figure had been erroneously omitted from the previous version.

Page 6-12, Section 6.2.1.4, corrected the title of Assistant Director to Director's Representative.

Page 6-15, Sections 6.2.7 and 6.2.8, removed all references to the Appendix and specified the designated individuals with unlimited access.

Page 6-17, Section 6.2.10, removed the reference to the Appendix and stated that the visitors form is available from the Reactor Supervisor.

Page 6-19, Section 6.2.13, revised the plan review and audit requirements to be in accordance with the Technical Specification requirements.

Please contact Tim DeBey, Reactor Supervisor, at (303) 236-4726 if you have questions regarding this physical security plan revision or need further details.

Sincerely,

David B. Smith
Reactor Administrator
