

UNITED STATES  
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555

May 5, 1992

Docket Nos. 50-348  
and 50-364

Mr. W. G. Hairston, III  
Senior Vice President  
Southern Nuclear Operating  
Company, Inc.  
Post Office Box 1295  
Birmingham, Alabama 35201-1295

Dear Mr. Hairston:

SUBJECT: CURRENT LICENSING BASIS WORKSHOP - JOSEPH M. FARLEY  
NUCLEAR PLANT, UNITS 1 AND 2

The Nuclear Regulatory Commission's Office of Nuclear Reactor Regulation is sponsoring a workshop on the Current Licensing Basis (CLB) that will be held in the Regency Room of the Holiday Inn, Crowne Plaza, Rockville, Maryland on June 23-24, 1992. The purpose of this letter is to solicit your interest in this workshop.

On March 14, 1992, NRC issued Generic Letter 92-03, "Compilation of the Current Licensing Basis: Request for Voluntary Participation in Pilot Program." In that letter, we discussed the CLB, its definition, and the Commission's interest in seeking volunteers to compile their CLB.

The purpose of the workshop is to examine the CLB, and to discuss how it is maintained, utilized, and changed over the life of the license. In the workshop, we will address such topics as compilation of the CLB and the relationship between the CLB and the docket, final safety analysis report (FSAR), design document reconstitution (DDR) programs, licensee's commitment tracking systems, backfits, and license renewal. We envision the workshop will include both panel discussions and speakers on these subjects.

The success of this workshop is dependent on industry's interest and active participation. Accordingly, we request your recommendations for specific panel discussion topics, the names of those members of your staff who will attend, and those willing to participate as panel members. We request that you provide this information to your project manager by May 18, 1992. A final agenda will be developed and distributed after we have considered your recommendations.

This request is covered by Office of Management and Budget Clearance Number 3150-0011, which expires May 31, 1994. The estimated average number of burden hours is 2 person hours

for each licensee's response, including those needed to assess the request. This estimate of the average number of burden hours pertains only to the identified response-related matters. Comments on the accuracy of this estimate and suggestions to reduce the burden may be directed to Ronald Minsk, Office of Information and Regulatory Affairs (3150-0011), NEOB-3019, Office of Management and Budget, Washington, DC 20503, and to the U.S. Nuclear Regulatory Commission, Information and Records Management Branch (MNBB-7714), Division of Information Support Services, Office of Information and Resources Management, Washington, DC 20555.

If you have any questions on this matter, please contact your project manager.

Sincerely,

Original signed by:
