Steam Generator Replacement Project -
Revisions to Technical Specification Listings of Core Operating
Limit Methodologies; Supplement

By letter dated September 30 1994, Duke Power Company submitted proposed revisions to Technical Specifications to facilitate steam generator replacement. Included in the submittal were revisions to Technical Specification 6.9.1.9, to incorporate anticipated revisions to Topical Reports DPC-NE-3000P-A and DPC-3002-A. These revisions have since been approved. Attached are pages marked up to reflect the updated topicals.

Note that new originals will be provided following issuance of the unit-specific Technical Specifications; an amendment which is anticipated to be approved in the near future.

If there are any questions, or more information is needed, please call Scott Gewehr at (704) 382-7581.

Very truly yours,
