AAMODT RESPONSE TO COMMISSION REQUEST  
THAT AAMODTS NAME A QUALIFIED INDIVIDUAL TO  
VALIDATE HEALTH STUDY REPORTED IN MOTION OF JUNE 21, 1984

At the August 15, 1984 public meeting, Chairman Palladino requested the Aamodts to submit the name of an individual, whom they would trust, to validate the health study reported in their motion before the Commission. (Motion, June 21, 1984)

We have made a number of inquiries among scientists who had had the opportunity to read the motion. These scientists included Dr. Dean Abramhamson, Dr. Thomas Mancuso, Dr. Rosalie Bartell, Dr. Gordon McLeod and Dr. John Cobb. All expressed great interest in the study. Dr. Cobb would, with some adjustments in schedule, have the time to begin an investigation.

Dr. Cobb is qualified, in all respects, to evaluate the health study data. He is a medical doctor, graduated from Harvard, was chairman of the department of medicine at the University of Colorado, received a degree in public health from John Hopkins and has directed investigations of environmentally-related health problems. Dr. Cobb is sending a resume directly to Chairman Palladino.

DS03

Dr. Cobb would need to know immediately after September 7 concerning the Commission's disposition. He has tentatively agreed to set aside time beginning Friday, September 21. Dr. Cobb can be reached by telephone at his office (303-394-5177) or at home (303-333-4737). His address is 4824 E. 6th Ave., Denver, Colorado 80220. After September 14, Dr. Cobb's address is Box 1403, Corrales, New Mexico 87048.

The Commission wanted to know if we would be satisfied with an investigation by CDC. We find that we would not be comfortable with a validation of our assertions by CDC.

Respectfully submitted,
