Nuclear Regulatory Commission

Dear Chairman Palladino,

SERVED SEP 7 1984

Over 450 residents of Central Pennsylvania signed the enclosed Open Petition during Labor Day Kipona Celebration held on the banks of the Susquehanna River in Harrisburg.

These residents urge the Nuclear Regulatory Commission to revoke the license of General Public Utilities. They are convinced that GPU lacks the requisite character to safely operate Three Mile Island Unit 1.

Please give thoughtful consideration to their request.

Most sincerely,

## Open Petition

General Public Utilities (GPU) owner and operator of Three Mile Island (TMI), has been guilty of criminal dishonesty for six (6) years. They "lack the requisite character" to safely operate a nuclear reactor. "Character" is one of the few criteria expressly established by Congress in the Atomic Energy Act for the holding of a license. We urge the Nuclear Regulatory Commission to revoke the license of GPU, to operate TMI.
