Docket No. 52-004

Document Control Desk  
U. S. Nuclear Regulatory Commission  
Washington DC 20555

Attention: Theodore E. Quay, Director  
Standardization Project Directorate

Subject: **SBWR - Withdrawal of TRACG User's Manual (Proprietary) & Associated Affidavit**

- Reference:
1. Letter from Dino Scaletti (NRC) to Mr. James E. Quinn (GE), *Request For Withholding Information From Public Disclosure, General Electric (GE) TRACG02V User's Manual*, December 1993.
  2. Letter from J.F. Klapproth to M.M. Razzaque, *Transmittal of TRACG User's Manual*, June 15, 1994.

In response to the NRC's Reference 1 letter, GE formally requests the withdrawal of the proprietary version of the TRACG02V User's Manual and its associated affidavit. This material was transmitted to the NRC in Reference 2. We have reviewed this with your staff and have concluded that the proprietary version of the TRACG02V User's Manual is not required within the NRC and its only usage is by Brookhaven National Laboratory (BNL) and BNL will no longer need the manual after June 1996. Therefore, we request that by June 30, 1996 BNL's copy and the other four copies transmitted by Reference 2 be returned to GE or confirm to us in writing that it has been disposed-of in a manner appropriate for the disposal of proprietary materials.

Should you have any questions concerning the Subject document please contact Bharat Shiralkar of our staff on 408-925- 6889.

Sincerely,

8MS
