

**Wisconsin Electric** POWER COMPANY  
231 W. MICHIGAN, P.O. BOX 2046, MILWAUKEE, WI 53201

September 4, 1984

Mr. H. R. Denton, Director  
Office of Nuclear Reactor Regulation  
U. S. NUCLEAR REGULATORY COMMISSION  
Washington, D. C. 20555

Attention: Mr. J. R. Miller, Chief  
Operating Reactors, Branch 3

Gentlemen:

DOCKETS 50-266 AND 50-301  
NUREG-0737, ITEM II.B.3  
CORE DAMAGE ASSESSMENT METHODOLOGY  
POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2

In Mr. J. R. Miller's letter of November 3, 1983, which transmitted the Safety Evaluation for the Post-Accident Sampling System at our Point Beach Nuclear Plant, we were requested to provide a plant-specific procedure which implements the Westinghouse Owners' Group (WOG) Post-Accident Core Damage Assessment Methodology. Please find attached Emergency Plan Implementing Procedure (EPIP) 1.7, "Core Damage Estimation Procedure". EPIP 1.7 will be used to implement the WOG methodology. This fulfills the final requirements for this item as stated in the November 3 Safety Evaluation.

Should you have any questions concerning this matter, please do not hesitate to contact us.

Very truly yours,

Vice President-Nuclear Power

C. W. Fay
