Gentlemen:

DOCKETS 50-2, 5 AND 50-301
GENERIC LETTER 87-02
REVISION 1 TO SUMMARY REPORT FOR RESOLUTION
OF UNRESOLVED SAFETY ISSUE A-46
POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2

INTRODUCTION

On June 30, 1995, Wisconsin Electric (WE) submitted to the NRC WE Letter VPNPD-95-055, "Generic Letter 87-02 Summary Report for Resolution of Unresolved Safety Issue A-46, Point Beach Nuclear Plant, Units 1 and 2." That letter included as attachments the following reports:

1. WE Point Beach Nuclear Plant Units 1 and 2, "USNRC Generic Letter 87-02, USI A-46 Resolution, Seismic Evaluation Report," Rev. 0, June 1995.
2. WE Point Beach Nuclear Plant Units 1 and 2, "USNRC Generic Letter 87-02, USI A-46 Resolution, Relay Evaluation Report," Rev. 0, June 1995.

During subsequent reviews of these submitted reports following the June 30 submittal, we have identified corrections that should be made to the reports.

OUTLIERS

Our reviews of the Seismic Evaluation Report identified three outliers associated with the Point Beach Nuclear Plant cable trays that were not discussed in Revision 0 of the report. The outliers were identified and documented during the USI-46 seismic verification walkdowns.

These outliers are:

- 1) a loose base clip angle on one side of a floor to ceiling cable tray support;
- 2) cable bundles in PBNP Unit 1 Containment, 46' elevation hanging out of their respective cable trays with no visible cable ties securing them to the trays.
- 3) one instance in PBNP Unit 2 Containment, 46' elevation where cable bundles were hanging out of their respective vertical cable tray with no visible cable ties securing them to the tray.

The outliers along with the proposed resolution are discussed in Sections 7, 8 and 9 of the Seismic Evaluation Report.

ADMINISTRATIVE CHANGES

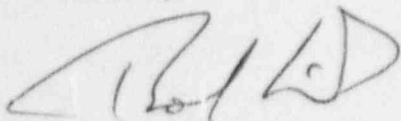

Our reviews have also identified administrative changes that should be made to each of the submitted reports for completeness and clarification. These changes are summarized in a table at the beginning of the enclosed Attachments A and B.

REVISION SUBMITTAL

This letter transmits Revision 1 to the above reports for incorporation into your copies. Attachments A and B provide the instructions for incorporating the revised sections, a summary of the revisions, and the revised sections for each of the respective reports. The specific changes in each revised section are identified with margin bars in the left margin. For convenience, we have provided replacements for all of the pages for each revised section.

We would be pleased to answer any questions you may have regarding the results of our USI A-46 study or the enclosed report revisions.

Sincerely,

Bob Link
