

SEP 04 1984

Docket Nos. 50-369
and 50-370

Duke Power Company
ATTN: Mr. H. B. Tucker, Vice President
Nuclear Production Department
422 South Church Street
Charlotte, South Carolina 28242

Gentlemen:

We have received a copy of your letter dated April 20, 1984, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This letter transmitted Revisions 7 and 3 to McGuire Nuclear Station Unit Nos. 1 and 2 pump and valve inservice testing program. Fees pursuant to 10 CFR 170.22 of the March 23, 1978 regulations were not remitted with your letter.

Based on information provided by the ONRR staff as the result of their preliminary review of your application, it has been determined that a Class III fee (\$4,000) and a Class I fee (\$400) are appropriate since the review will involve consideration of a single safety issue and a duplicate unit. Therefore, you are requested to remit the sum of \$4,400 to this office. If the ONRR staff's final review of your request reveals that these fees are not appropriate, you will be notified and any necessary adjustments will be made.

For your information, a brief discussion of fees for applications for license amendments and other requests filed before and after June 20, 1984, is contained in Enclosure 1 to this letter. If you have any questions regarding fees, please contact us on 301-492-7225.

On another matter, our Division of Accounting and Finance received Check No. 744686, dated August 7, 1984, in the amount of \$150. We would appreciate your identifying the application and facility to which this check belongs since the ONRR staff is unable to identify an application received without the required \$150 application fee.

Sincerely,

Original Signed by:
