Docket No. 50-341

The Detroit Edison Company
ATTN: Wayne H. Jens
Vice President
Nuclear Operations
6400 North Dixie Highway
Newport, MI 48166

Gentlemen:

This refers to the special observation inspection conducted by Mr. T. P. Gwynn of this office on May 29 through August 13, 1984, of activities at Enrico Fermi Nuclear Power Station, Unit 2, authorized by License No. CPPR-87 and to the discussion of our findings with Mr. W. Jens and others at the conclusion of the inspection.

This special observation inspection was conducted during the Final Assessment of Construction performed by Duke Power Company at the request of Detroit Edison Company.

The enclosed copy of our special inspection report identifies areas examined and activities observed during the assessment. Within these areas, the inspection consisted of a selective observation and examination of Duke Power Company activities, Detroit Edison Company procedures and representative records, and interviews with personnel.

No items of noncompliance with NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure(s) will be placed in the NRC Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1). If we do not hear from you in this regard within the specified periods noted above, a copy of this letter and the enclosed inspection report will be placed in the Public Document Room.
