Dear Mr. Reed:

Thank you for your letters dated May 15, 1991, August 30, 1991, and January 10, 1992, in response to our July 31, 1990, and November 12, 1991 letters concerning multiple construction issues at your Byron and Braidwood facilities (AMS RIII-90-A-0067).

In our letters, we requested that you evaluate these issues and submit the results of your investigation to the NRC.

Your response indicated that no substantive safety issues were identified and that corrective actions, where appropriate, have been completed. We found your investigation to be sufficient to support your conclusions and have no additional questions regarding this matter. We request that you retain the supporting documentation for your investigation of these issues for a minimum of one year from the date of this letter.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter will be placed in the NRC Public Document Room.

Your cooperation is appreciated.

Sincerely,
