Docket No. 50-454  
Docket No. 50-455  
Docket No. 50-456  
Docket No. 50-457

Commonwealth Edison Company  
ATTN: Mr. Cordell Reed  
Senior Vice President  
Licensing Department-Suite 300  
Opus West III  
1400 Opus Place  
Downers Grove, IL 60515

Dear Mr. Reed:

Thank you for your letter dated April 15, 1992, in response to our inquiry concerning FSAR and procedure revisions regarding structural design issues at your Eyrn and Braidwood facilities (AMS RIII-90-A-0017).

Your response indicated that all deviating calculations have been revised to meet requirements as outlined in the UFSAR. You further indicated that the level of procedural detail does not lend itself to revision with regard to beam design. We found your investigation to be sufficient to support your conclusions and have no additional questions regarding this matter. We request that you retain the supporting documentation for your investigation of these issues for a minimum of one year from the date of this letter.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter will be placed in the NRC Public Document Room.

Your cooperation is appreciated.

Sincerely,

ORIGINAL SIGNED BY HUBERT J. MILLER

H. J. Miller, Director  
Division of Reactor Safety
