Subject: McGuire Nuclear Station
Docket Nos. 50-369 and 50-370
Training and Qualification Plan, Revision 13

Gentlemen:

As required by 10 CFR 50.54(p), enclosed are four copies of Revision 13 to the McGuire Nuclear Station Training and Qualification Plan that includes the new Physical Performance Test Program for security officers and several miscellaneous changes. The Physical Performance Test Program was effective April 1, 1992 and includes a validated physical test battery that replaces the previous job-related performance test. The new physical test battery will be implemented for each applicable security officer on the individual's physical fitness requalification due date.

In addition, Revision 13 is a complete Plan submittal that uses a different type style. The enclosed Explanation of Complete Plan Submittal addresses the type style change.

The enclosed Synopsis of Changes details the specific text changes. These changes do not decrease the effectiveness of the McGuire Nuclear Station Training and Qualification Plan.

Very Truly Yours,

T. C. McMeekin
McGuire Site Vice President
