QA FILE: CP-84-16, SDAR-140
FILE NO.: 10110

Dear Mr. Johnson,

On July 10, 1984 we verbally contacted your Mr. D. Hunnicutt of a deficiency regarding several main steam relief valves that may not be qualified for actual loading conditions. We have submitted an interim report TXX-4250 dated August 8, 1984.

We are continuing our evaluation and anticipate completion by October 9, 1984.

Very truly yours,
