50-446

COMANCHE PEAK STEAM ELECTRIC STATION
UT REQUIREMENTS: CLASS 1 PIPING
QA FILE: CP-84-21, SDAR-145
FILE NO.: 10110

Dear Mr. Johnson,

On August 15, 1984 we verbally contacted your Mr. D. Hunnicutt of a deficiency regarding piping material that does not meet the ultrasonic test requirements for NB-2500 ASME Class 1 applications.

We have completed our investigation and concluded that the matter is not reportable under 10CFR50.55(e). Records supporting this determination are available for your inspector's review at the CPSES site.

Very truly yours,

A handwritten signature in cursive script that reads "Billy R. Clements".
