

Phil Gramm
Texas

United States Senate

MEMORANDUM

Date: 5-5-92

Nuclear Regulatory Commission
Washington, D.C. 20555

My constituent has sent me the enclosed communication, and I would appreciate a response which addresses his/her concerns.

Please send your response, together with the constituent's correspondence, to me at the following address:

Office of Senator Phil Gramm
2323 Bryan Street, #1500
Dallas, Texas 75201

Attention: Clarissa Clarke

April 1, 1992

The Honorable Phill Gramm
2323 Bryan, St-1500
Dallas, TX 75201

Dear Senator Gramm :

Most recently I expressed my views and opinions on the Clarence Thomas nomination. At that time I learned that you were philosophically aligned with the Bush administration. Subsequently, I have received a correspondence thanking me for my involvement. You also inquired into whether there was any further service your office could provide.

I would like to hear your views on "Comanche Gate." "Water Gate" was the concealment of burglary and many other illegalities of the Nixon Administration in order to achieve a goal. Respectively, the deeds that develop "Comanche Gate" also had a driving goal. This was also a cover up...a concealment of safety, bribery, and numerous other illegal acts. Texas Utilities Electric Company had the desire to obtain an operating license for a Nuclear Power Plant, no matter the cost...and they did.

Yet, they can still be held accountable for their gross actions. Enclosed you will find the history and disclosure of some of these deeds. If you and your staff will review this information and share your views with me, I would certainly appreciate it.

Respectfully,

Joseph J. Macktal Jr.
