Gentlemen:

We have received your letter dated May 4, 1992, which transmitted Revision 16 to the Cooper Nuclear Station Emergency Plan. The plan revision was submitted pursuant to 10 CFR 50.54(q) and involved changes to the frequency of making offsite notification updates and automatic protective action recommendations for the general emergency classification. These changes were approved in draft form by the NRC as documented in our letter dated April 14, 1992. Revision 16 of the plan submitted with your May 4, 1992, letter contained no changes from the draft approved previously and, therefore, continues to be acceptable.

Should you have any questions concerning this letter, please contact Dr. D. Blair Spitzberg of my staff at (817) 860-8191.

Sincerely,

A. Bill Beach, Director
Division of Reactor Projects
