Docket No. 50-322

Mr. J. D. Leonard
Vice President - Nuclear
Long Island Lighting Company
175 East Old County Road
Hicksville, New York 11801

Dear Mr. Leonard:

SUBJECT: SUPPLEMENTAL MOTION FOR LOW POWER OPERATING LICENSE -- PHYSICAL
SECURITY PLAN - SHOREHAM NUCLEAR POWER STATION, UNIT 1

The staff's previous approval of the Shoreham Physical Security Plan was based in part on the protection of the TDI emergency diesel generators as vital equipment. As a result of a re-evaluation of your proposed alternative emergency power supplies for operation at up to five percent power, the staff has determined that you should amend the Security Plan to describe the measures that will be used to protect alternative emergency power supply equipment located in the protected area as vital equipment.

Please submit your revised plan for our review and approval upon receipt of this letter. Our evaluation of the revised plan, which will update the evaluation presented in Supplemental Safety Evaluation Report (SSER) Number 5, will be published in a future SSER.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than 10 respondents; therefore, OMB clearance is not required under P.L. 96-511.

Sincerely,

A handwritten signature in cursive script, appearing to read "A. Schwencer".
