Re: Quality Management Program
 for License No. 13-26260-01

Our license is restricted to diagnostic cardiovascular procedures only. These procedures do not require written directive as defined in 10CFR35.2. The Quality Management Program as outlined in 10CFR35.32 is, therefore, not applicable to our uses or byproduct material.

We submit this letter for your files to establish that we have reviewed the requirements of the Quality Management Program and have found them not applicable to our license. This is in accordance with information contained on page 34115 of the Federal Register Volume 56, No. 143, Thursday, July 25, 1991, Rules and Regulations.

"Section 35.32 Quality Management Program
 ...the phrase as applicable was added to clarify that this section is applicable only to those part 35 licensees who perform procedures for which a written directive is required."

Sincerely,

Emily A. Diltz, M.D., F.A.C.C.
