Power Authority, the County of Suffolk, the Town of Brookhaven and the Shoreham-Wading River Central School District, and the Settlement Agreement among the Long Island Power Authority, the School District and SE₂ (effective dated June 1, 1992) in connection with Commission consideration of the motions to dismiss identified above. Please find copies of the Agreement and the Settlement Agreement attached to each motion per the Commission's request.

SE₂ has also asked me to convey to the Commission and the Licensing Board SE₂'s deep regret in having to abandon its principled participation in these NRC proceedings. However, government officials of the County of Suffolk have represented that the Long Island Power Authority ("LIPA") would withhold approximately \$41 million of funds due the County, the Town of Brookhaven, and the School District on June 1, 1992 unless SE₂ agreed to file all necessary papers to seek dismissal of these proceedings with prejudice. And those officials further represented that the withholding of such funds would cause the County's bond rating to be reduced to "junk bonds" and result in the equivalent of the County's bankruptcy with ensuing great harm to the residents of Suffolk County. In these circumstances, SE₂ considered that its larger civic obligations to the general welfare of the community should take precedence over its more narrow educational energy policy objectives which are intended only to promote that general welfare.

Thus, SE₂ agreed to move to dismiss these proceedings in return for LIPA's assurance in the Agreements including LIPA's assurance that it will make payments due to the County, Town and School District, at least for a limited period of time, so that those entities have some security in future budgetary planning while a final and enforceable resolution of LIPA's duties is pursued along parallel paths.

SE₂ wishes to assure the Commission that SE₂ will participate in future NRC proceedings, as it has in the past, to urge the making of decisions which SE₂ considers beneficial to the public welfare.

Respectfully submitted,

James P. McGrovery, Jr.
