

February 2, 1996

Mr. John P. Stetz
Vice President - Nuclear
Davis-Besse Nuclear Plant
Centerior Service Company
c/o Toledo Edison Company
300 Madison Avenue
Toledo, OH 43652

Dear Mr. Stetz:

We have received the enclosed Federal Emergency Management Agency (FEMA) correspondence dated December 15, 1995 transmitting the findings for the offsite emergency preparedness aspects of the Davis-Besse Nuclear Power Station exercise conducted on September 20, 1995.

No deficiencies were identified during this exercise. However, four Areas Requiring Corrective Action (ARCA) were identified during the exercise.

We fully recognize that any corrective actions to be implemented may involve parties and political institutions which are not under your direct control. Nonetheless, we expect that assistance, if appropriate, will be extended.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed FEMA report will be placed in the NRC Public Document Room.

Sincerely,

James R. Creed, Chief
Plant Support Branch 1
