Dear Mr. Graesser:

We have received the enclosed Federal Emergency Management Agency (FEMA) correspondence dated January 23, 1996 transmitting the FEMA evaluation report for the November 15, 1995 Emergency Preparedness Exercise at the Byron Nuclear Power Station.

No deficiencies were identified during the exercise. However, one Area Requiring Corrective Action (ARCA) was identified. This ARCA remains open.

We fully recognize that any corrective actions to be implemented may involve parties and political institutions which are not under your direct control. Nonetheless, we expect that assistance, if appropriate, will be extended.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed FEMA correspondence will be placed in the NRC Public Document Room.

Sincerely,

James R. Creed
