Inspection Summary

Inspection Conducted April 9-12, 1984 (Report 50-267/84-09)

Areas Inspected: Routine, unannounced inspection of physical barriers -  
protected area, security system power supply, assessment aids, access  
control - personnel, access control - packages, access control - vehicles,  
communications, and independent inspection effort. The inspection involved  
35 inspector-hours onsite by one NRC inspector.

Results: Within the eight areas inspected, no violations or deviations were  
identified.
