R. A. Karam, Ph.D., Director
Neely Nuclear Research Center
Georgia Institute of Technology
900 Atlantic Drive
Atlanta, GA 30332-0425

Dear Dr. Karam:

It has been brought to our attention, by Mr. Bill Tobin from our Region II office, that the governor's designee in Georgia has recently changed. We also discovered a few phone number discrepancies. Corrected pages 3 and 5 of Enclosure 2 to your approved route #181, Atlanta, Georgia, to the DOE Savannah River Plant, South Carolina, are enclosed. Please replace the old pages 3, 4 and 5 with the enclosures.

Should you require additional information or have questions concerning this matter, please contact John Cook of my staff at (301) 415-8521.

Sincerely,

Charles J. Haughney, Deputy Director
Spent Fuel Project Office
Office of Nuclear Material Safety
and Safeguards
