

JUL 20 1984

Docket: 50-267

Public Service Company of Colorado  
ATTN: O. R. Lee, Vice President  
Electric Production  
P.O. Box 840  
Denver, Colorado 80201

Gentlemen:

This is in response to your letter of January 31, 1984, regarding changes (Revision 14) to the security plans for the Fort St. Vrain Nuclear Generating Station.

We have reviewed Revision 14 and have determined that, for the most part, the changes are consistent with 10 CFR 50.54(p) and are, therefore, acceptable. However, there are certain portions, as set forth in the enclosure, that decrease plan effectiveness and can only be authorized by license amendment. Accordingly, you are to follow your previous plan in regard to these items.

The enclosure to this letter contains Safeguards Information of a type specified in 10 CFR 73.21 and must be protected against unauthorized disclosure.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P. L. 96-511.

Sincerely,

*Original Signed By*

Eric H. Johnson, Chief  
Reactor Project Branch 1
