Gentlemen:

ULNRC-3325

CALLAWAY PLANT
DOCKET NUMBER 50-483
REVISION TO TECHNICAL SPECIFICATION
5.3.1 - FUEL ASSEMBLIES

Union Electric Company herewith transmits an application for amendment to Facility Operating License Number NPF-30 for Callaway Plant. This application proposes to change Technical Specification 5.3.1 to allow the use of an alternate zirconium based fuel cladding material.

The Callaway Plant On-Site Review Committee and the Nuclear Safety Review Board have reviewed and approved the amendment request. Attachments 1 through 5 provide the Technical Specification changes, Safety Evaluation, Significant Hazards Evaluation, and Environmental Consideration, respectively. We have concluded that this amendment application does not involve an unreviewed safety question as defined in 10CFR50.59, nor a significant hazard consideration as determined per 10CFR50.92.

If you have any questions concerning this amendment application, please contact us.

Very truly yours,

A handwritten signature in cursive script that reads "Donald F. Schnell".
