Docket No. 50-482

Mr. Bart D. Withers
President and Chief Executive Officer
Wolf Creek Nuclear Operating Corporation
Post Office Box 411
Burlington, Kansas 66839

Dear Mr. Withers:

SUBJECT: WOLF CREEK GENERATING STATION - RESPONSE TO GENERIC LETTER 91-06,
RESOLUTION OF GENERIC ISSUE A-30 "ADEQUACY OF SAFETY RELATED DC
POWER SUPPLIES" (TAC NO. M81516)

On April 29, 1991, the NRC issued Generic Letter (GL) 91-06, "Resolution of Generic Issue A-30. 'Adequacy of Safety-Related DC Power Supplies,'" which implemented the staff's resolution of Generic Issue A-30 as part of the resolution of Generic Issue (GI) 128, "Electrical Power Reliability." The GL required that licensees provide written responses to questions in order to allow the staff to determine whether any additional actions were required.

By letter dated October 28, 1991, Wolf Creek Nuclear Operating Corporation submitted certified responses to the questions as requested by GL 91-06. The staff has reviewed your response and finds that it satisfies the reporting requirements of the GL. This completes the staff's activities associated with TAC No. M81516.

Sincerely,

Original Signed By

William D. Reckley, Project Manager
Project Directorate IV-2
Division of Reactor Projects III/IV/V
Office of Nuclear Reactor Regulation
