SUBJECT: PUBLIC MEETING TO DISCUSS THE SYSTEMATIC ASSESSMENT OF LICENSEE PERFORMANCE (SALP) FOR COMANCHE PEAK STEAM ELECTRIC STATION

This refers to the meeting conducted at the Comanche Peak Personnel Processing Center on January 19, 1996. This meeting related to a discussion between the NRC staff and TU Electric personnel of the recently completed SALP for Comanche Peak. The SALP report was issued on December 21, 1995, and covered the period from May 29, 1994, through November 25, 1995.

This meeting was considered to be beneficial as it included a dialog on the plant performance areas which were rated as superior as well as those areas which could be improved.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the NRC's Public Document Room.

Should you have any questions concerning this matter, we will be pleased to discuss them with you.

Sincerely,

A handwritten signature in cursive script, appearing to read "J. E. Dyer".

J. E. Dyer, Director  
Division of Reactor Projects
