Mr. Alexander Adams
Project Manager, Non-Power Reactors
Decommissioning & Environmental Project Directorate
Division of Advanced Reactors and Special Projects
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

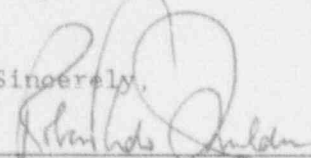

Subject: Revisions to Operator Requalification Program at the University
of Virginia.

Dear Mr. Adams:

Enclosed please find a proposed new Operator Requalification Program for the University of Virginia Reactor Facility. We have removed all references to the CAVALIER reactor since it is to undergo decommissioning. We propose a two year cycle for the program, with an operator evaluation annually and a written examination at the end of each cycle. This program meets the requirements of 10 CFR, part 55 and ANS standard ANS 15.4 and has been reviewed and approved by our Reactor Safety Committee.

Procedures have been developed to implement this program and are available for inspection.

Sincerely,

Robert U. Mulder, Director
U.Va. Reactor Facility

County of Albemarle
Commonwealth of Virginia

I hereby certify that the attached document is a true and
exact copy of a letter, presented before
(Type of document)

me this 4th day of June, 1992.
