Gentlemen:

SUBJECT: In the Matter of
Application of Texas Utilities
Generating Company, et al. for
An Operating License for
Comanche Peak Steam Electric Station
Units #1 and #2 (CPSES)
Docket Nos. 50-445 and 50-446 *OL*

Correction to Attachment D to
CASE's Answer to Applicants' Motion
for Summary Disposition Relating
to Richmond Inserts

In reviewing subject Attachment D, there is a statement at the top of page 3 (first paragraph) which could be misconstrued as implying something which is not correct and which was not intended. The paragraph should be changed to read:

It appears that following the writing of the DDR, Curing Report Form and Checklists were completed on 2/25/76 and 3/1/76 for Concrete Pours 035-2755-001 and 201-5781-001, respectively (pages 5 through 11 of 13 of DDR C-219R1). The Checklists appear to have been begun by the QC Inspectors 14 days prior to the time they were completed and signed off.

This more accurately reflects what is contained in the documents.

Respectfully submitted,

(Mrs.) Juanita Ellis, President of CASE
