Docket No. 50-267

**SUBJECT: Final Survey Plan for Site Release, Supplemental Information -  
Contains Proprietary Information (Attachment 1)**

- REFERENCES:
1. PSCo Letter, Fisher to Weber, dated November 15, 1995 (P-95102); "Final Survey Plan for Site Release, Supplemental Information"
  2. PSCo Letter, Fisher to Weber, dated October 12, 1995 (P-95077); "Fort St. Vrain Final Survey Plan for Site Release, Proposed Revisions for Survey of Piping Systems and Suspect Affected Survey Units"

Dear Mr. Weber:

This letter provides a revised Technical Basis Document (TBD) package to describe the methods and instrumentation for surveying piping system internal surfaces at Fort St. Vrain. This TBD package was previously submitted on November 15, 1995 (Reference 1), at which time much of the information was requested to be withheld from public disclosure because it was the subject of a patent application. Since that time, the Westinghouse Electric Corporation submitted its patent application, and more extensive information is available for public review.

The revised TBD package is submitted for your use in evaluating Public Service Company of Colorado's (PSCo) proposed methods for surveying piping system internal surfaces, as requested in our October 12, 1995 letter (Reference 2). The following attachments are provided:

Attachment 1 is the Technical Basis Document (TBD) package describing instrumentation developed by SEG for surveying internal piping system surfaces at Fort St. Vrain. This package describes the equipment, detector sizes, efficiencies, sensitivities, and other performance characteristics of this instrumentation, as discussed in the referenced letter. This package includes WCAP-14585, *Fort St. Vrain Technical Basis Documents for Piping Survey Instrumentation*, dated January 1996 (Proprietary).

Attachment 2 is the non-proprietary version of this TBD package, WCAP-14570, *Fort St. Vrain Technical Basis Documents for Piping Survey Instrumentation*, dated January 1996 (Non-Proprietary).

The information contained in Attachment 1 is considered proprietary by Westinghouse Electric Corporation, under the criteria set forth in 10 CFR 2.790. The following documents are also submitted with this letter:

- (1) One copy of the Application for Withholding Proprietary Information from Public Disclosure, Westinghouse letter CAW-96-918, Attachment 3,
- (2) One copy of the accompanying affidavit, Attachment 4,
- (3) One copy of the Copyright Notice, Attachment 5, and
- (4) One copy of the Proprietary Information Notice, Attachment 6.

One copy of the above attachments is provided to the NRC Document Control Desk and one copy has been provided directly to Mr. David Fauver to expedite the NRC's review.

As Attachment 1 contains information proprietary to Westinghouse Electric Corporation, it is supported by an affidavit signed by Westinghouse, the owner of the information. The affidavit sets forth the basis on which the information may be withheld from public disclosure by the Commission and addresses with specificity the considerations listed in paragraph (b)(4) of Section 2.790 of the Commission's regulations.

Accordingly, it is respectfully requested that the information which is proprietary to Westinghouse be withheld from public disclosure in accordance with 10 CFR 2.790 of the Commission's regulations.

Two (2) copies of WCAP-14496, "Fort St. Vrain Technical Basis Documents for Piping Survey Instrumentation," dated November 1995 (Proprietary) and two (2) copies of WCAP-14497, "Fort St. Vrain Technical Basis Documents for Piping Survey Instrumentation," dated November 1995 (Non-Proprietary) were transmitted to your

office on November 15, 1995 (Reference 1). These documents have been canceled and are superseded by Attachments 1 and 2. Attachments 1 and 2 were developed to reflect NRC comments on the original documents, now that Westinghouse has filed patent applications related to this material. At the request of our contractor, the Westinghouse Electric Corporation, PSCo respectfully requests that the two copies of WCAP-14496 and WCAP-14497 be returned at your earliest convenience so they can be accounted for in the Westinghouse Document Control System.

Correspondence with respect to the copyright or proprietary aspects of the items listed above or the supporting Westinghouse Affidavit should reference CAW-96-918 and should be addressed to N. J. Liparulo, Manager of Nuclear Safety Regulatory and Licensing Activities, Westinghouse Electric Corporation, P.O. Box 355, Pittsburgh, Pennsylvania 15230-0355.

If you have any questions regarding this information, please contact Mr. M. H. Holmes at (303) 620-1701.

Sincerely,

Frederick J. Borst  
Decommissioning Program Director
