June 8, 1992

On May 29, 1992,³ the NRC issued Amendment No. 66 to Facility Operating License NPF-49 which authorized the transfer of control of PSNH's 2.8475 percent ownership interest in Millstone Unit No. 3 to NU. This amendment was to become effective on the date the merger was completed.

In the May 29 letter, the NRC requested to be notified when the merger had been accomplished. The purpose of this letter is to confirm previous verbal communications to the Staff that effective June 5, 1992, the merger between PSNH and a newly formed wholly owned subsidiary of NU was consummated. As a result of this merger, PSNH has become a wholly owned subsidiary of NU. In conjunction with the merger, Amendment No. 66 became effective on June 5, 1992 (the same date as the merger).

We trust this adequately addresses the Staff's request. If we can provide any additional information, please contact my Staff.

Very truly yours,

NORTHEAST NUCLEAR ENERGY COMPANY
