MEMORANDUM FOR: Parties in the Limerick Proceeding

FROM: A. Laurence Ralph
Office of the General Counsel

SUBJECT: TOUR OF LIMERICK

SERVED SEP 18 1984

Personnel from the Nuclear Regulatory Commission's Office of the General Counsel and Office of Policy Evaluation will participate in a plant tour of the Limerick Generating Station on September 26, 1984. The purpose of the tour is to familiarize the personnel with the power plant. The plant tour will be conducted by the NRC resident inspector. He will describe the plant but not discuss issues currently under adjudication. The plant tour will begin at 12:30 and is expected to last approximately four hours. Parties may have one representative join the NRC group. Requests to participate in the tour must be received by September 21, 1984 so that proper arrangements can be made. Requests or communications concerning the tour should be addressed to A. Laurence Ralph at (202) 634-3224.
